Dept officer said USG fully aware and appreciative GOS cooperation and public support at this difficult time, and deeply regretted delay original information. Garrigues, still on personal basis, said believed it would be very helpful if explanation were given by Ambassador to Fockin.

Dept has kept in close touch with Spanish Embassy (as with other allied Embassies) throughout crisis period and has informed it of pertinent White House statements in advance of or simultaneously with release of such statements. For example text President's letter of Oct 26 to Khrushchev read to Emilio Garrigues about 5 p.m. Oct 26.

Believe you should make use of above to soothe Castiella's feelings while assuring him of genuine US intention to inform GOS in advance of these important decisions and also of US appreciation for GOS expressions of solidarity with US actions.
